## Get off to a productive start with the reliable Green Cloud!

*The VegaSystems Green Cloud revolutionizes the way we use cloud services by combining climate friendliness, sustainability and high performance.*

*Our innovative solution is based on groundbreaking technology that uses waste heat from servers to recover thermal energy and thus drastically reduce environmental impact.*

## Environmentally friendly and sustainable

*By using sustainable heat recovery technology, VegaSystems Green Cloud not only minimizes the ecological footprint, but also actively contributes to climate protection.*

*By efficiently using the waste heat from our servers, we significantly reduce energy consumption and help reduce CO2 emissions.*

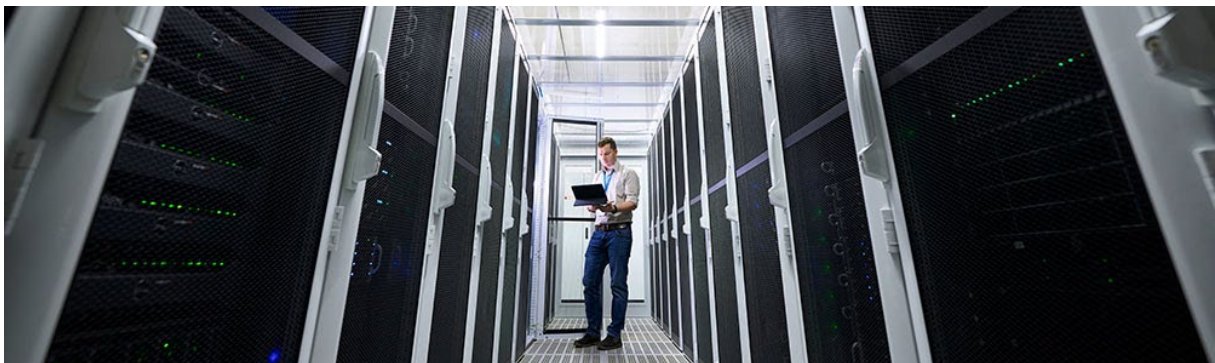

*Our products have a PUE value of 1.08 and are also powered by 100% green electricity with full compensation of CO2 emissions. With the VS Green Cloud, you get an ideal cloud environment without harming the environment.*

## High performance and reliability

*Our cloud solution is designed to meet the most demanding requirements and provide you with a smooth and fast experience.*

*Whether you want to host a small website or run a complex application, our Green Cloud is there to help you with outstanding performance.*

### Green Cloud ISO 27001 certified

*The security of your data is our top priority. For this reason, Green Cloud is certified according to ISO 27001, the internationally recognized standard for information security management.*

*We use the strictest security measures to ensure the confidentiality, integrity and availability of your data. With Green Cloud, we offer you a platform with the highest possible level of security.*

### Custom cloud according to your wishes!

*Do you want a cloud with different performance than our established products? Would you like more RAM or even more processor cores? Contact us today and let us make you an individual offer, exactly as you want it.*

*Discover the future of cloud technology today with a secure and high-performance green cloud. Get advice today to use a sustainable, high-performance and secure cloud solution that not only meets your requirements, but also makes a positive contribution to preserving the environment.*

*\* All prices plus VAT. All offers are aimed exclusively at businesses. Our terms and conditions apply. For terms of less than 12 months, setup fees of €99 apply. Tariffs can be changed at any time.*

*<sup>2</sup> Automatic extension of the contract term; cancellation must be made 30 days before the end of the contract.*
